ANZAC DAY 2020

Dear members,

We trust you are all keeping well in the strange times of the coronavirus pandemic. We were grateful to have the opportunity to connect with many of you in recent months over the phone, and heartened to hear that you are finding ways to remain safe, well, and active in light of the current restrictions on our movements and activities. Happily, we are seeing a relaxing of these restrictions without indications of greatly increasing infection rates, and this gives us hope that we might be able to enjoy a drink and a laugh in person with you soon in our club.

We have taken the opportunity of the COVID shutdown to undertake some minor works at the club, including a refurbishment of storage areas and electrical works. Now that restrictions are easing, a working bee is planned for Sunday 28th June (11am - 4pm) to help get the club ready for opening soon. Members interested in helping out are asked to contact the club prior to the day to ensure we meet social distancing requirements.

As you all know, ANZAC Day 2020 was a very different experience from previous years. Our committee paid respects in our doorways and driveways, and we were heartened with the enthusiasm for this and uptake in the community. We thank our vice president, Sean Moran, for laying wreaths on behalf of our club and community, with thanks to Adam Bandt, and Moonee Valley City Council. Whilst we may have been apart physically, the ANZAC spirit was strong as we stood together to light up the dawn.

Lest we forget.
